

FEE SCHEDULE

The cost of services for IVF varies because of the amount of medications, laboratory tests, and ultrasounds that may be necessary for ovulation induction and the protocol that has been assigned.

Patients with insurance coverage for IVF: A prepayment of \$2,000.00 is required. The office will file claims to the insurance company.

For Patients who do not have IVF insurance coverage: A global fee of \$7,950.00 has been established for IVF ...

Inclusive: III, IV, & V Exclusive: I, II, VI, & VIII

Payment is required prior to instituting cycle medications (at baseline).

CANCELLATION: An **IVF Cycle** begins with the baseline and ends at the embryo transfer. If a cancellation occurs at any time during the **IVF Cycle**, reimbursement of fees will be adjusted, minus the services and procedures that have been rendered.
